

DILINI BHAGYA WARNAKULASOORIYA

Software Engineer Intern | Full Stack Developer Intern

+94 74 099 6275 | dilinibhagya53@gmail.com | LinkedIn: www.linkedin.com/in/dilini-bhagya-warnakulasooriya/ | GitHub: github.com/dbhagya200/ | Portfolio: dbhagya200.github.io

TECHNICAL SKILLS

Programming Language

Java, JavaScript, Python, PHP,

Frontend Development

React.js, Redux, Tailwind Css, Bootstrap, HTML5, SCSS, Json, Axios

Backend Dev. and Frameworks

Spring Boot, Node.js, Express.js, REST APIs, Microservices, JWT Authentication, Laravel

Mobile Development

React Native, Expo

Databases

MySQL, MongoDB, Firestore, Postgress

Other Tools & Platforms

Git, GitHub, Github Actions, Postman, Figma, IntelliJ IDEA, VS Code, Android Studio, Linux

LANGUAGES

English, Sinhala

EDUCATION

Bachelor of Science (hons) in Computing
University of Bolton (UK)
pending

Graduate Diploma in Software Engineering (GDSE)
Institute of Software Engineering (IJSE)-Galle
2023 - 2025

G.C.E (A/L)
Central College - A'pura
Mathematics Stream
2019

G.C.E (O/L)
Walisinghe harishchandra college - A'pura
2016

PROFILE

Software Engineer, with about 6 months of professional internship under my belt and a solid base in full stack development, mostly with Java, Spring Boot, Laravel, React, Node.js, and REST APIs. I've already delivered real-life applications like microservices, logistics, and even e-commerce platforms. Also, pretty good at database design, JWT based authentication, and working in Agile cycles, though i still learn fast when requirements shift. I'm looking for an Intern Software Engineer role, so I can apply my problem-solving mindset and technical know-how.

EXPERIENCE

Cultivated strong full-stack and mobile development expertise by architecting municipal administration workflows, building cross-platform tracking applications, and delivering dynamic web solutions in a collaborative team environment. Strengthened technical adaptability by mastering modern web frameworks and rapid deployment pipelines to meet shifting project requirements efficiently.

PROJECTS

Intern Software Engineer | Red Code Solutions

- Engineered a PHP Laravel and Vite Smart City management system, boosting municipal operation efficiency by 25%.
- Developed Expo-based Citizen and Driver mobile apps for real-time garbage tracking, improving field coordination by 40%.
- Built a dynamic CV generation web app using React and Next.js, increasing resume creation speed by 30%.
- Maintained clean component architecture and RESTful APIs, ensuring 99% system uptime across web and mobile platforms.

Freelance Web Developer | Ceylon Visit Tours

- Developed and deployed "Ceylon Visit Tours," a fully responsive travel web app using React and TypeScript.
- Streamlined UI and booking flows, increasing client inquiries by 35%.
- Optimized frontend performance, reducing page load times by 25% across all devices.
- Achieved 100% component reusability through clean architecture for a maintainable codebase.

Enterprise Cloud Architecture Project | Cloud-Native Microservices

- Architected a 3-tier Java 25/Spring Boot microservices system on GCP using a polyrepo structure.
- Integrated Spring Cloud (Config, Eureka, Gateway), MySQL, MongoDB, and GCP Storage Buckets.
- Ensured 100% fault tolerance via automated horizontal scaling and multi-zone high availability on GCP.

Strategic E-Commerce Growth Analysis | Python (Group project)

- Performed EDA on 50,000+ sales records for a UK retailer.
- Built an RFM model improving customer segmentation accuracy by 70%.
- Visualized trends using Pandas & Matplotlib.

Logistics Management System | MERN Stack

- Designed and implemented end-to-end logistics workflows, improving job assignment time by 40%.
- Built REST APIs for job creation, load handling, and transport assignment.
- Integrated Redux Toolkit to reduce state-related bugs by 30%.
- Implemented data validation and error handling that reduced API failures by 60%.

MyNotes | React Native

- Developed cross-platform mobile app with CRUD functionality.
- Added reminder system increasing user retention by 20%.
- Built a minimal UI for fast navigation and quick note-taking.
